

It Is Up To You

Presentation will be conducted by your new operations FAASTeam program manager, Craig Patterson. The presentations will also include some "real life" scenarios for discussion. Plan to come out on May 24th for some great information. A presentation of "Preventive Maintenance" will be conducted by Dan Vengen. Just a refresher on the limitation of preventive maintenance. Invite your friends and other fellow pilots to join us. Attendance at this seminar will meet one of the requirements of the FAA WINGS program.

Directions: Attendees with Class II, Non-SIDA access to Abilene Regional Airport can park on the ramp in front of the hangar. All others can park in the TSTC parking lot next to our hangar, or on the grass behind the hangar, provided it has not recently rained. I have attached a couple photos of the hangar for identification purposes.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
